

## What means the acronyms we find in the campaigns? How can I understand the acronym of a country?

Sprintrade Help - 2015-01-21 - Comments (0) - General

You can find the country's campaign in the initials of the campaign.

For example, IT for Italy, ES for Spain, etc. INT stands for International and includes many countries, which are listed in the description of the campaign.

The marks A1, A2 and A3 are internal references that have no meaning for users.
